

Benefits

of the community

FENC is far more than just a source of learning material. It is an online community of educational professionals. We are a collaborative organisation involving educators in every aspect of our activities from delivery of learning solutions to the sharing of best practice. Benefits include:

- **Improved quality and standards**

Being part of the FENC community of colleges can help you drive up quality, raise standards and improve your performance at Inspection

- **Value for money**

FENC *is* colleges working in partnership, sharing content and expertise; each member benefiting from the collective efforts of the many which represents a most compelling case for joining the community

- **Management and Control**

Community-driven products, services and examples of good practice in e-learning, adapted to your needs, can help you to deliver measurable benefits, and support your strategic goals

- **Industry needs**

We can help you to develop and deliver a flexible and affordable response to the diverse needs of learners and industry

- **Staff Recruitment and Development**

We can enhance the personal and professional development of staff in their take-up and effective use of ILT

- **Blended Learning**

The community portfolio represents the largest and most flexible collection of vocational learning resources, lesson plans and blended learning solutions available to FE Colleges
